NOTICE

Water Conservation Measures

Effective May 8, 2026

**Sprinkling permitted daily between the hours of:
7:00 am to 9:00 am AND 6:00 pm to 8:00 pm**

FRESHET:

The Village's water source, Gwillim Creek, is in peak spring runoff and carrying large quantities of debris and sediment. This sediment reduces the rate at which the treatment plant is able to filter water, and increases maintenance requirements. Overconsumption during freshet further reduces the production of filtered water to distribute to the system and limits plant capacity. If sprinkling is kept within the permitted hours, this will give the reservoir a chance to recover, and will give operators time to do plant maintenance.

LAWN & GARDEN WATERING:

During the spring and summer seasons, daily residential water use can double primarily because of lawn and garden watering.
DO NOT over-water your lawn. To stay healthy, most lawns need 2.5 cm of water (equal to 1 hour of sprinkling) per week.
Please ensure that water does not over-spray onto sidewalks, driveways or roads.

Sprinkling regulations apply to all sprinklers and irrigation-type systems.
Hand watering with a watering can is permitted at any time.

The Village of Slocan thanks you for your assistance and will advise if any changes are required. If you have any questions, please call 250-355-2277

Time Capsule

To commemorate the Village of Slocan's 125th birthday in 2026, the community will dedicate a time capsule at the birthday celebration on July 18th.

If you have a small item you think would be appropriate for the time capsule, **please drop it off at the Village office no later than June 15, 2026.**

THE TIME CAPSULE WILL BE OPENED IN 2126
